In our capacity as EU Contact of the Responsible Person and Compliance Partner, we will be responsible for verifying that each product complies with the applicable cosmetic products legislation before it is placed on the relevant market. Our responsibilities will include, as applicable:

- Reviewing the product's regulatory and safety documentation;
- Ensuring that a compliant Product Information File and Cosmetic Product Safety Report are maintained;
- Reviewing product labelling and claims;
- Completing the required product notification;
- Maintaining the required regulatory documentation;
- Cooperating with the relevant competent authorities; and
- Taking appropriate corrective action where a product is found to present a risk or not comply with the applicable requirements.

No product covered by this appointment should be placed on the market until GCRS Europe has completed its review and provided written confirmation that the product is approved for placement on the relevant market.

The distributor must promptly inform GCRS Europe and Pink Fishes of any complaint, adverse event, undesirable effect or suspected serious undesirable effect associated with the products. All relevant information should be provided without delay, including the product name, batch number, details of the event, the date on which it occurred and any available supporting documentation.

Where a serious undesirable effect is reported, the distributor must also comply with any direct notification obligation imposed on it by the applicable legislation and cooperate fully with GCRS Europe and Pink Fishes in the investigation and reporting of the event.
